Made with SBR/NR non-staining/non-marking anti-skid rubber backing for gripping to floors and carpets.

A molded rubber border aids in keeping dirt and moisture where it needs to stay on the mat...and out of your facility.

The carpet is Polyester in which is extremely strong and very durable fibers that are resistant to most chemicals, stretching and shrinking, wrinkle resistant, mildew and abrasion resistant. Polyester in nature is quick drying. Polyester retains its shape and is good for even the harshest climates. It is easily washed and dried.
